Kohenoor KEN is the unified digital asset of Kohenoor Technologies, now officially deployed on the Ethereum Mainnet. Earlier versions: KEN (P) on Polygon as the Payment Token and KEN (C) on Binance Smart Chain as the Corporate Token were testnet deployments that together powered Kohenoor's ecosystem. These are now merging into a single, consolidated KEN on Ethereum, serving as the core utility and value token across all platforms, including Mudharba portfolio management services, KENFI, KENEX and ProEdge; bridging finance, intelligence, and innovation in

🔥 Launch Your Memecoin Website in 60 Seconds — No Coding — FREE 🔥

The #1 no-code website builder and token launch platform to create memecoin websites, DeFi platforms, and blockchain projects
