

Anti Money-Laundering & Counter-Terrorist Financing Policy

Regulatory Framework

This policy is prepared in accordance with Pakistan Anti-Money Laundering Act 2010 (as amended), SECP regulations, State Bank of Pakistan AML/CFT Regulations, and FATF Recommendations adopted by Pakistan.

The company commits to comply with Financial Monitoring Unit (FMU) reporting obligations and applicable national compliance requirements.

Purpose

To prevent misuse of company services for money laundering, terrorism financing, fraud or illegal financial activity.

To implement risk-based customer due diligence and monitoring procedures.

Customer Due Diligence (CDD)

- Before providing services the company verifies identity using CNIC, passport, or company registration documents.
- For businesses: certificate of incorporation, address verification and authorized representatives are verified.
- Enhanced Due Diligence is applied to foreign clients, high-risk jurisdictions and politically exposed persons.

Risk Classification

- Low Risk – local verified individuals.
- Medium Risk – remote customers or small businesses.
- High Risk – foreign entities, large transactions or PEPs.

Transaction Monitoring

- Unusual payment patterns, rapid fund movement and structuring are flagged.
- Suspicious behavior triggers internal review and potential reporting to authorities.

Suspicious Transaction Reporting

- The Compliance Officer prepares Suspicious Transaction Reports (STR) to Financial Monitoring Unit when required by law.
- Accounts may be restricted pending review.

Record Retention

Customer records, communications and transaction records retained for minimum 5 years as required under Pakistani AML laws.

Employee Responsibilities

- Employees must verify customers, report suspicious activity and maintain confidentiality.
- Training sessions conducted periodically.

Compliance Officer

A designated compliance officer supervises AML/CFT procedures and regulatory communication.

Review

Policy reviewed annually or when regulatory changes occur.
